

## CURRICULUM VITAE

### RUDOLPH A. MARCUS

#### *Personal Information*

Date of Birth: July 21, 1923

Place of Birth: Montreal, Canada

Married: Laura Hearne (dec. 2003), 1949 (three sons: Alan, Kenneth, and Raymond)

Citizenship: U.S.A. (naturalized 1958)

#### *Education*

B.Sc. in Chemistry, McGill University, Montreal, Canada, 1943

Ph.D. in Chemistry, McGill University, 1946

#### *Professional Experience*

Postdoctoral Research, National Research Council of Canada, Ottawa, Canada, 1946-49

Postdoctoral Research, University of North Carolina, 1949-51

Assistant Professor, Polytechnic Institute of Brooklyn, 1951-54; Associate Professor, 1954-58;  
Professor, 1958-64; (Acting Head, Division of Physical Chemistry, 1961-62)

Member, Courant Institute of Mathematical Sciences, New York University, 1960-61

Professor, University of Illinois, 1964-78 (Head, Division of Physical Chemistry, 1967-68)

Visiting Professor of Theoretical Chemistry, IBM, University of Oxford, England, 1975-76

Professorial Fellow, University College, University of Oxford, 1975-76

Arthur Amos Noyes Professor of Chemistry, California Institute of Technology, 1978-2012

Professor (hon.), Fudan University, Shanghai, China, 1994-

Professor (hon.), Institute of Chemistry, Chinese Academy of Sciences, Beijing, China, 1995-

Fellow (hon.), University College, University of Oxford, 1995-

Linnett Visiting Professor of Chemistry, University of Cambridge, 1996

Honorable Visitor, National Science Council, Republic of China, 1999

Professor (hon.), China Ocean University, Qingdao, China, 2002 -

Professor (hon.), Tianjin University, Tianjin, China, 2002-

Professor (hon.) Dalian Institute of Chemical Physics, Dalian, China, 2005-

Professor (hon.) Wenzhou Medical College, Wenzhou, China, 2005-

Distinguished Affiliated Professor, Technical University of Munich, 2008-

Visiting Nanyang Professor, Nanyang Institute of Technology, Singapore 2009-

Chair Professor (hon.) University System of Taiwan, 2011

Distinguished Professor (hon.), Tumkur University, India, 2012

Arthur Amos Noyes Professor of Chemistry, California Institute of Technology, 1978-2013

John G. Kirkwood and Arthur A. Noyes Professor of Chemistry, California Institute of  
Technology, 2013-

### *Honorary Doctorates*

University of Chicago, 1983 (D.Sc.h.c.), Polytechnic University, 1986, University of Göteborg, Sweden, 1987 (Fil.dr.h.c.), McGill University, Canada, 1988, University of New Brunswick, Canada, 1993, Queen's University, Canada, 1993, University of Oxford, England, 1995, University of North Carolina at Chapel Hill, 1996, Yokohama National University, Japan, 1996 (D.h.c.), University of Illinois at Urbana-Champaign, 1997, Technion-Israel Institute of Technology, Israel, 1998, Universidad Politécnica de Valencia, Spain, 1999, Northwestern University, IL, 2000, University of Waterloo, Canada, 2002, Nanyang Technological University, Singapore, 2010, Tumkur University, India, 2012, University of Hyderabad, India, 2012, University of Calgary, Canada, 2013 (LL.D.)

### *Honorary Memberships*

Member, National Academy of Sciences, 1970-  
Fellow, American Academy of Arts and Sciences, 1973-  
Foreign Member, The Royal Society (London), 1987-  
Member, International Academy of Quantum Molecular Science, 1987-  
Member, American Philosophical Society, 1990- , Member of Council, 1999-2005  
Honorary Fellow, Royal Society of Chemistry, 1991-  
Foreign Fellow, Royal Society of Canada, 1993-  
Honorary Member, International Society of Electrochemistry, 1994-  
Honorary Board Member, International Society of Theoretical Chemical Physics, 1995-  
Honorary Member, Korean Chemical Society, 1996-  
Honorary Editor, International Journal of Quantum Chemistry, 1996-  
Foreign Member, Chinese Academy of Sciences, 1998-  
Honorary Board Member of The International Raoul Wallenberg Foundation, 2003-  
Honorary Board Member of The Angelo Roncalli International Committee, 2003-  
Honorary Member, European Academy of Sciences, 2004-  
First Honorary Scientific Fellow, Literary & Historical Society, University College, Dublin, 2004-  
Sesquicentennial Medal, Polytechnic University, Brooklyn, 2006.  
Honorary Member, The National Museum of Emerging Science and Innovation, Tokyo, Japan, September 2008-  
Honorary Member, Institute for Advanced Studies, Technical University of Munich, Munich, Germany, 2008-  
Member, International Panel of Advisors, Institute of Advanced Studies, Nanyang Technological University, Singapore, 2008-  
Honorary Academician, Academia Sinica, Taiwan 2010-

### *Other Honors and Awards*

Anne Molson Prize in Chemistry, McGill, 1943  
NSF Senior Postdoctoral Fellowship, 1960-61  
Alfred P. Sloan Fellowship, 1960-63  
Associate Member, Center for Advanced Studies, University of Illinois, 1968-69  
Alexander von Humboldt Foundation Senior U.S. Scientist Award, Technical University of Munich, 1976  
Irving Langmuir Award in Chemical Physics, American Chemical Society, 1978  
The Electrochemical Society Lecture, The Electrochemical Society, 1979, 1996

Robinson Medal, Faraday Division, Royal Society of Chemistry, 1982  
Renaud Foundation Lectureship, American Chemical Society, Michigan State University Section, 1982  
Nebraska Lectureship, American Chemical Society, University of Nebraska, 1982  
Chandler Medal, Columbia University, New York, 1983  
Wolf Prize in Chemistry, 1985  
Willard Gibbs Medal, American Chemical Society, Chicago Section, 1988  
Peter Debye Award in Physical Chemistry, American Chemical Society, 1988  
Centenary Medal, Faraday Division, Royal Society of Chemistry, 1988  
S. C. Lind Lectureship, American Chemical Society, East Tennessee Section, 1988  
National Medal of Science, 1989  
Theodore William Richards Medal, American Chemical Society, Northeastern Section, 1990  
William Lloyd Evans Award, Ohio State University, Columbus, 1990  
Edgar Fahs Smith Award, American Chemical Society, Philadelphia Section, 1991  
Remsen Award, American Chemical Society, Maryland Section, 1991  
Linus Pauling Award, American Chemical Society, Oregon, Portland, and Puget Sound Sections, 1991  
Nobel Prize in Chemistry, 1992  
Joseph O. Hirschfelder Prize in Theoretical Chemistry, 1993  
American Academy of Achievement Golden Plate Award, 1993  
Honorary Citizen of Winnipeg, 1994  
Lavoisier Medal, Société Française de Chimie, 1994  
Treasure of Los Angeles Award, Central City Association of Los Angeles, 1995  
Auburn - G. M. Kosolapoff Award, American Chemical Society, Auburn Section, 1996  
Award in Theoretical Chemistry, American Chemical Society, 1997  
Honorary Co-President, 29<sup>th</sup> International Chemistry Olympiad, Montreal, Canada, 1997  
Oesper Award, American Chemical Society, Cincinnati Section, 1997  
Top 75 Award, Chemical and Engineering News, American Chemical Society, Boston, MA, 1998  
Key to the City of Taipei, Taiwan, 1999  
Symposium in honor of Professor Rudolph A. Marcus, Organized by faculty at the Technical University of Munich, Germany, 2003  
Symposium in honor of Professor Rudolph A. Marcus, John Stauffer Lecture in the Sciences, USC, Los Angeles, 2003  
Tree Planting Ceremony, Nobel Garden, Pohang University, Gyeongui City, South Korea, 2004  
Postage stamp of Guiné-Bissau, 2005  
Special Symposium in honor of Professor Rudolph A. Marcus: 50 Years of Electron Transfer and RRKM Theory, American Chemical Society 2006 Annual Meeting, San Francisco, California, 2006  
Lifetime Achievement Award in Theoretical Chemistry, Theory and Applications of Computational Chemistry Conference (TACC), Shanghai, China, 2008  
Spiers Medal, Royal Society of Chemistry, University of Wales Institute, Cardiff, UK, 2009  
Chief Judge, "A\*Star Talent Search, Singapore Science and Engineering Fair Awards" for high school students, Singapore, 2011  
Unveiling of portrait of Rudy Marcus, chemistry faculty conference room, Chemistry Building, McGill University, Montreal Canada, 2011  
Inauguration of the "Rudy Marcus Chemical Sciences Laboratories," Department of Chemistry, McGill University, Montreal Canada, 2012  
The Prof. Rudolph A. Marcus Award, given annually for the best paper(s) in the 'Dynamics' area of *Journal of Spectroscopy and Dynamics*, 2013  
Postage stamp of Ghana, 2013  
Rudolph A. Marcus Conference and Festival, Singapore, 2013

Induction into the Alpha Chi Sigma Hall of Fame, Charlottesville, Virginia, 2014  
Chairman, International Peer Review of the College of Chemistry and Molecular Engineering,  
Peking University, China, 2015  
Honorary Editor of the Springer Book Series *Progress in Theoretical Chemistry and Physics*, 2016  
Electrochemical Society Masters Film Interview, Pasadena, California, 2016  
*E&S Magazine* “No Rest for a Nobelist: Rudolph A. Marcus” Film Interview, California Institute of  
Technology, Pasadena, California, 2016

#### *Other Professional Memberships*

Alpha Chi Sigma  
American Association for the Advancement of Science  
American Chemical Society  
American Physical Society

#### *Committees*

Chairman, Division of Physical Chemistry, American Chemical Society, 1964-65  
Chairman, Board of Trustees, Gordon Research Conferences, 1968-69  
(Member of Board, 1966-69, Council Member at Large, 1965-68)  
Director, Zeta Corporation, Alpha Chi Sigma, 1966-70  
Graduate Science Facilities Consultant, National Science Foundation, 1969-70  
Advisory Board, Petroleum Research Fund, American Chemical Society, 1970-72  
Executive Committee, Division of Chemical Physics, American Physical Society, 1970-72  
Chairman, National Research Council - National Academy of Sciences,  
Committee on Kinetics of Chemical Reactions, 1975-77 (Member, 1973-77)  
National Research Council - National Academy of Sciences, Climatic Impact Committee,  
Panel on Atmospheric Chemistry, 1975-78  
National Research Council - National Academy of Sciences,  
Committee on Chemical Sciences, 1977-79  
Advisory Committee for Chemistry, National Science Foundation, 1977-80  
Co-Chairman, Executive Committee, American Academy of Arts and Sciences,  
Western Section, 1981-84 (Member, Executive Committee, 1979-84)  
National Research Council - National Academy of Sciences Committee to  
Survey Opportunities in the Chemical Sciences, 1982-86  
Committee on Research and Planning, American Academy of Arts and Sciences, 1989-91  
Member, External Advisory Board, NSF Center for Photoinduced Charge Transfer,  
Rochester, NY, 1990-  
Chile Presidential Chairs Committee, Republic of Chile, 1994-96  
Advisor of the Center for Molecular Sciences, Chinese Academy of Sciences,  
Beijing, China, 1995-  
Advisor of the State Key Laboratory for Structural Chemistry of Unstable and Stable Species, Beijing,  
China, 1995-  
Member, Mathematics Panel, International Benchmarking of U.S. Research Fields, NAS-NRC  
Committee on Science, Engineering and Public Policy, 1996-1998  
Panel Member, Accountability of Federally Funded Research, COSEPUP, 2000-  
Co-organizer, First Gordon Research Conference Summer School, “Analytical Approaches to Rate  
Processes and Time-Resolved Spectroscopy in Condensed Phases”, 2000

### *Editorial Boards*

Journal of Chemical Physics, 1964-66  
Annual Review of Physical Chemistry, 1964-69  
Journal of Physical Chemistry, 1968-72, 1980-84  
Accounts of Chemical Research, 1968-73  
International Journal of Chemical Kinetics, 1976-1980  
Molecular Physics, 1977-1980  
Chemical Physics Letters, 1980-1990  
Laser Chemistry, 1982-  
Advances in Chemical Physics, 1984-2006  
Theoretica Chimica Acta, 1985-1988  
International Advisor in Chemistry, World Scientific Publishing, 1987-  
International Reviews in Physical Chemistry, 1988-  
Progress in Physics, Chemistry and Mechanics (China), 1989  
Journal of the Chemical Society. Faraday Transactions, 1990-1995  
Journal of the Chemical Society. Perkin Transactions 2, 1992-2002  
International Journal of Molecular Science, Physical Chemistry, Theoretical and Computational Chemistry, 2007 -

### *Selected Lectures (1963 - )*

Plenary Lecture, Comité International de Thermodynamique et Cinétique Electrochimiques, USSR, 1963  
Henry Werner Lectures, University of Kansas, 1963  
International Summer School in Theoretical Chemistry, NATO, Constance, Germany, 1965  
Frontiers in Chemistry Lecture, Western Reserve University, 1967  
Venable Lecture, University of North Carolina, 1967  
Seydel-Wooley Lectures, Georgia Institute of Technology, 1967  
Introductory Lecture, Faraday Society Discussion on Electrode Reactions of Organic Compounds, England, 1968  
Foster Lectures, State University of New York at Buffalo, 1968  
Plenary Lecture, International Society of Electrochemistry, Yugoslavia, 1971  
International Summer School on Applications of Quantum Mechanics to Electrochemistry, Yugoslavia, 1971  
Second International Summer School on Applications of Quantum Mechanics to Electrochemistry, Yugoslavia, 1972  
Introductory Lecture, Theoretical Section, Faraday Discussion on Molecular Beam Scattering, University College, London, England, 1973  
Lectures, Winter Institute in Theoretical Chemistry, Norway, 1976  
Distinguished Lectures, University of Rochester, 1977  
Summer Lectures, Northwestern University, 1977  
Distinguished Visiting Professorship, University of Texas, 1977  
Lectures, Seminar on Mechanisms and Kinetics of Electron Transfer, Switzerland, 1978  
Kelly Lectures, Purdue University, 1978  
William Draper Harkins Lecture, University of Chicago, 1980

Raymond and Beverly Sackler Distinguished Lectures in Chemistry, Tel Aviv University, Israel, 1980

I. M. Kolthoff Lectures, University of Minnesota, 1981

O. K. Rice Lectures, University of North Carolina, 1982

E. H. Boomer Lectures, University of Alberta, Canada, 1982

R. A. Robinson Memorial Lecture, Introductory Lecture, Faraday Society Discussion on Electron and Proton Transfer, The University, Southampton, England, 1982

Frontiers in Chemical Research Lectures, Texas A & M University, 1982

Charles Brockman Memorial Lecture, University of Georgia, 1982

Distinguished Lecture, 11th Peter A. Leermakers Symposium, Wesleyan University, Connecticut, 1983

Nieuwland Lecture, University of Notre Dame, 1983

Distinguished Lectures, Guelph-Waterloo Center for Graduate Work in Chemistry, Ontario, Canada, 1983

Charles Frederick Chandler Lecture, Columbia University, 1983

E. U. Condon Lecture, Department of Chemistry, University of Colorado, 1985

Sydney Golden Lecture, Brandeis University, 1985

Leland J. Haworth Distinguished Scientist Lectures, Brookhaven National Laboratory, New York, 1985-1987

Birch Lecture, Research School of Chemistry, The Australian National University, 1985

Neckers Lecture, University of Southern Illinois, 1986

Krug Lecture, Alpha Chi Sigma, University of Illinois, 1986

Plenary Lecture, Sixth Euchem Conference on Organic Electrochemistry, Switzerland, 1986

Plenary Lecture, Sixth International Conference on Photochemical Conversion and Storage of Solar Energy, France, 1986

Francis Clifford Phillips Lectures, University of Pittsburgh, 1987

Distinguished Lecture, 15th Peter A. Leermakers Symposium, Wesleyan University, 1987

Opening Lecture, Faraday Symposium on Molecular Vibrations, England, 1987

Iddles Lectures, University of New Hampshire, 1988

Dartmouth Lecture, Dartmouth College, 1988

Joe L. Franklin Memorial Lecture, Rice University, 1988

Frontiers in Chemistry Lecture, Case Western Reserve University, 1988

Arthur D. Little Lectures, Northeastern University, 1988

Convocation Address, Faculties of Science and Graduate Studies and Research, McGill University, Canada, 1988

Centenary Lectures, Royal Society of Chemistry, Universities of Cambridge, Birmingham, Oxford, Southampton, Manchester, Strathclyde, Imperial College of Science and Technology; England, 1988

3M University Lectures, University of Western Ontario, Canada, 1988

Plenary Lecture, Eighth International Congress on Photosynthesis, Sweden, 1989

Lectures, Summer School on Molecular Sciences, Institute of Atomic and Molecular Sciences, Academia Sinica, Taiwan, 1989

Plenary Lecture, Fortieth International Society of Electrochemistry Meeting, Japan, 1989

Theodore Williams Richards Lecture, American Chemical Society, Northeastern Section, Harvard University, 1990

John Howard Appleton Lecture, Brown University, 1990

William Lloyd Evans Award Lecture, Ohio State University, 1990

Closing Lecture, Faraday Discussion on Structure and Dynamics of Reactive Transition States, England, 1991

Glenn Brown Lectures, Case Western Reserve University, 1991

Fritz London Memorial Lecture, Duke University, North Carolina, 1991

Opening Lecture, Satellite Meeting on Electron Transfer, International Congress of Quantum Chemistry, Sophia-Antipolis, France, 1991

George Fisher Baker Lectures in Chemistry, Cornell University, 1991

Dupont Lecture, Harvey Mudd College, 1992

Northwest Lectureship in Physical Chemistry, Molecular Science Research Center, Battelle Pacific Northwest Laboratories, Washington State University, and University of Washington, 1992

1991 Pauling Award Address, American Chemical Society, Oregon State University, 1992

C.A. McDowell Lectures, University of British Columbia, Canada, 1992

Nobel Lecture, Stockholm, Sweden, 1992

J.O. Hirschfelder Lectures, Madison, Wisconsin, 1993

Sigma Xi Edison Lecture, Washington, D.C., 1993

Convocation Address, University of New Brunswick, Saint John, Canada, 1993

Convocation Address, Faculty of Arts and Science, Queen's University, Canada, 1993

Opening Lecture, Cursos de Verano, Universidad Complutense, Aguadulce, Spain, 1993

Nobel Laureate Lectureship, California State University, Long Beach, CA, 1993

Blacet Lecture, University of California at Los Angeles, 1994

Opening Lecture, Accademia dei Lincei Symposium, Perugia, Italy, 1994

Special Nobel Laureate Panel, National Science Teachers Association, Anaheim, CA, 1994

Arthur D. Little Lectures, Massachusetts Institute of Technology, 1994

Priestman Lectures, University of New Brunswick at Fredericton, Canada, 1994

Beatty Lecture, McGill University, Canada, 1994

Herzberg Lecture, Carleton University, Ottawa, Canada, 1994

Nelson J. Leonard Distinguished Lectures, University of Illinois at Urbana-Champaign, 1994

Festkolloquium in honor of H. Gerischer, Berlin, Germany, 1994

Speaker, International Union of Pure and Applied Chemistry, Nobel Laureate Symposium, "Chemistry for Life," Winnipeg, Canada, 1994

Frontiers in Chemistry Lecture in honor of Ernest Yeager, Case Western Reserve University, Cleveland, OH, 1994

Opening Lecture, Bicentennial Celebration in honor of Lavoisier, Congrès de la Société Française de Chimie, Lyon, France, 1994

Closing Lecture, Bioelectrochemistry and Bioenergetics Symposium, Seville, Spain, 1994

F. E. Bartell Memorial Lecture, University of Michigan, 1994

Keynote Lecture, Open House, University at Buffalo, SUNY, 1994

Lecture tour, Ministry of Education, Republic of China, 1994

Lectures, Chinese Academy of Sciences, Beijing and Hefei, China, 1994

Distinguished Lecture in Science, Hong Kong University of Science and Technology, Kowloon, Hong Kong, 1994

Kenneth S. Pitzer Lecture, University of California at Berkeley, 1995

Lecture, 15th Meeting of the Nobel Laureates in Chemistry, Lindau, Germany, 1995

Plenary Lecture, International Union of Pure and Applied Chemistry, 35th Congress, Istanbul, Turkey, 1995

Opening Lecture, International Society of Electrochemistry, 46th Annual Meeting, Xiamen, China, 1995

Samuel Schrage Memorial Lecture in the History of Science and Technology, University of Illinois at Chicago, Chicago, IL, 1995

Closs Lecture, University of Chicago, Chicago, IL, 1995

Lecture, Solvay Conference, Brussels, Belgium, 1995

Opening Lecture, Symposium on Electron Transfer in Proteins and Supramolecular Assemblies at Interfaces, Kanagawa, Japan, 1996

Davis Lecture, University of New Orleans, New Orleans, LA, 1996

Matsen Lecture, University of Texas at Austin, Austin, TX, 1996

Distinguished Lecture, University of Louisville, Louisville, KY, 1996

Electrochemical Society Lecture, 189th Meeting of the Electrochemical Society, Los Angeles, CA, 1996

Linnett Visiting Professor Lectures, University of Cambridge, England, 1996

Inaugural Symposium Lecture, Korea Institute for Advanced Study, Seoul, Korea, 1996

Twenty-fifth Anniversary Lecture, Korea Advanced Institute of Science and Technology, Taejeon, Korea, 1996

Lecture, Nobel Symposium, Björkborn, Sweden, 1996

Lecture, Electron Centennial Meeting, University of Cambridge, UK, 1997

George B. Kistiakowsky Lecture, Harvard University, Cambridge, MA, 1997

Bryce Crawford Lecture, University of Minnesota, Minneapolis, MN, 1997

Plenary Lecture, Conference on Optical, Electronic and Magnetic Properties of Molecules, University of Cambridge, UK, 1997

Oesper Lecture, University of Cincinnati, OH, 1997

Plenary Lecture, Symposium on Chemistry, Centennial Celebration of Peking University, Beijing, China, 1998

Lecture, Symposium, Twenty Years of Wolf Prizes, Jerusalem, Israel, 1998

Lecture, 16th Meeting of Nobel Laureates in Chemistry, Lindau, Germany, 1998

Speaker, Renaissance Weekend, Beaver Creek, CO, 1998

Lecture, Polytechnic University, ACS Global Salute to Polymers, American Chemical Society, New York, 1999

Lecture, Centennial Meeting, Centennial Symposium on "The History of Chemical Physics," American Physical Society, Atlanta, GA, 1999

Lecture, 9<sup>th</sup> Tohwa University International Symposium on Chemistry into the 21<sup>st</sup> Century, Japan, 1999

Hon. D.Sc. Lecture, Polytechnic University of Valencia, Spain, 1999

Lecture, Conference on Isotopes and Isotope Effects, Carry le Rouet, France, 1999

Lecture, Humboldt 200<sup>th</sup> Anniversary Lecture Series, Berlin, Germany, 1999

Wilhelm Jost Memorial Lectures and Silver Medal, Deutsche Bunsengesellschaft and Academy of Sciences in Gottingen, at Leipzig, Halle, Dresden, Gottingen and Marburg, Germany, 1999

Festsitzung Lecture in honor of Prof. J. Wolfrum, Heidelberg, Germany, 1999

Nobel Lecture, Ritsumeikan University, Kusatsu, Japan, 1999

Nobel Lecture, Kanagawa University, Yokohama, Japan, 1999

Plenary Lecture, 8<sup>th</sup> Asian Chemical Congress, Taipei, Taiwan, 1999

Plenary Lecture, 3<sup>rd</sup> NIMC International Symposium on Photoreaction Control and Photofunctional Materials, Tsukuba, Japan, 2000

Lecture, Nobel Laureates' Jubilee Meeting, Lindau, Germany, 2000

Lecture, Canadian Nobel Laureates Symposium, Alberta Teachers' Association Science Council Conference 2000, Edmonton, Canada, 2000

Lecture, Chemical Heritage Foundation, Nobel Centennial Symposium, Philadelphia, PA, 2000

Lecture, Nobel Laureates, Chemical Dynamics at the Turn of the New Century: Nobel Laureates Look Back and Ahead, American Chemical Society, San Diego, CA, 2001

First Richard M. Noyes Memorial Lecture, University of Oregon, 2001

Plenary Lecture, International Conference on Electrified Interfaces, Acadia University, Wolfville, NS, Canada, 2001

Plenary Lecture, First International Symposium on Isotopomers, Yokohama, Japan, 2001

Lecture, 14<sup>th</sup> Canadian Symposium on Theoretical Chemistry, Ottawa, Canada, 2001

Lecture, International Symposium on Interfacial Electron Transfer, American Chemical Society, Chicago, IL, 2001

Lecture, Sutin Symposium, Brookhaven National Laboratory, Upton, NY, 2001

Lecture, Medical Research Council, Cambridge, England, 2001

Lecture, Nobel Jubilee Symposium, Frontiers of Molecular Sciences, Friiberghs Manor, Örsundsbro, Sweden, 2001

Lecture, DOE Chemical Sciences Council Workshop on Charge Transfer on the Nanoscale, Santa Fe, NM, 2002

Lecture, Gordon Research Conference on Isotope Effects in the Biological and Chemical Sciences, Ventura, CA 2002

Keynote Lecture, Bioelectrochemistry Symposium. The Electrochemical Society Centennial Meeting, Philadelphia, PA, 2002

Lecture, Manuel M. Baizer Award Symposium on Organic Electrochemistry Symposium. The Electrochemical Society Centennial Meeting, Philadelphia, PA, 2002

Plenary Lecture, International Symposium on Frontiers in Molecular Science, China Ocean University, Qingdao, China, 2002

Lecture, Tianjin University, Tianjin, China, 2002

Lecture, Tsinghua University, Tsinghua, China, 2002

Keynote Speaker, International Goldschmidt Conference, Davos, Switzerland, 2002

Lecture, Noyes Laboratory Centennial Celebration, University of Illinois, Urbana-Champaign, IL, 2002

Lecture, University of Waterloo Ontario, Canada, 2002

Keynote Speaker, 12<sup>th</sup> Annual Goldschmidt conference, Davos, Switzerland, 2002

Lecture, American Geophysical Union, "Mass Independent Isotope Fractionation: New Frontiers in Isotope Biogeochemistry," San Francisco, 2002

Lecture, Hydrogen Storage Think Tank Meeting, Department of Energy, Washington DC, 2002

Lecture, 31<sup>st</sup> John Stauffer Lecture in the Sciences Symposium, "Frontiers in Theoretical Chemistry," Los Angeles, CA, 2003

Robinson Memorial Lecture, Texas Tech University, 2003

Lecture, Jortner-Fest Symposium, Tel Aviv, Israel, 2003

Lecture, Meeting of Nobel Laureates, Lindau, Germany, 2003

Plenary Lecture, Symposium on Slow Dynamics in Complex Systems, Sendai, Japan, 2003

Plenary Lecture, U.S.-Korea Conference on Science, Technology & Entrepreneurship, California Institute of Technology, Pasadena, California 2003

Nobel Lecture, University of La Verne, La Verne, California 2003

Plenary Lecture, Frontiers of Chemical Sciences and Education in the Middle East, Malta, November 2003

Keynote Lecture, Symposium of International Center for Technology and Innovation, University of Calabria Cosenza, Italy, 2003

Lecture: University of Calabria, Italy. ALARICO -International Conference on Frontiers in Science and Technology, University of Rome, November-December 2003

Plenary Lecture, Frontiers of Chemical Sciences, Research and Education in the Middle East, American Chemical Society & International Union of Pure & Applied Chemistry, Portomaso, Malta, 2003  
Lecture, Nobel Symposium, University of Laverne, Los Angeles, California, 2003  
Lecture, International Centre for Theoretical Physics, Trieste, Italy, 2004  
Lecture, Fantoni Research Center, Udine, Italy, 2004  
Lecture and Discussion, Garibaldi High School, Udine, Italy, 2004  
Lecture, Department of Chemistry and Astronomy, University of Padova, Padova, Italy, 2004  
Plenary Lecture, Symposium on Theory and Applications of Computational Chemistry, Gyeongui City, South Korea, 2004  
Commencement Address, Pohang University, Gyeongui City, South Korea, 2004  
Lecture, Alhambra High School Science Fair, Alhambra, California, March, 2004  
Frontier in Physical Sciences Lecture, Imperial College, University of London, U.K., 2004  
Lecture, Mark S. Child Symposium, Theoretical Chemistry Laboratory, Oxford University, Oxford, U.K., 2004  
Lecture, Department of Chemistry, Columbia University, New York, NY, 2004  
Lecture, Institute of Geophysics and Planetary Sciences, University of California Los Angeles, 2004  
Slichter Lecture, Institute of Geophysics and Planetary Sciences, University of California Los Angeles, Los Angeles, Ca., May, 2004  
Lecture, Institute of Geophysics and Planetary Sciences, University of California Los Angeles, Los Angeles, Ca., May, 2004  
Bridicka Lecture, Heyrovsky Institute, Czech Academy of Science, Czech Republic, 2004  
Heyrovsky Discussion, Heyrovsky Institute, Czech Academy of Science, Prague, Czech Republic, June 2004  
Lecture, 40th Anniversary Celebrations, Abdus Salam International Centre for Theoretical Physics, Trieste, Italy 2004  
Plenary Lecture, VII School of Neutron Scattering, Palau, Sardinia, Italy 2004  
Opening Plenary Lecture, 3rd Annual Conference of Chinese Theoretical and Computational Chemistry, Hong Kong, January 2005  
Opening Plenary Lecture, Asian Photochemistry Conference, Taipei, Taiwan, January, 2005  
Lecture, GeoClub, California Institute of Technology, Pasadena, California, February 2005  
Lecture, Westridge High School, Pasadena, California, 2005  
Lecture, Department of Chemistry, University of California Berkeley, 2005  
Flygare Memorial Lecture, University of Illinois-Champaign Urbana, Urbana, Illinois, 2005  
Roundtable Discussion, Nobel Laureates' Meeting, Lindau, Germany, 2005  
Keynote Lecture, Femtochemistry VII Conference, Washington, DC, 2005  
Plenary Lecture, Edinburgh Protein Interaction Centre (EPIC), Edinburgh, Scotland, 2005  
Lecture, Oxygen in the Earliest Solar System Workshop, Gatlinburg, Tennessee, 2005  
Keynote Address, 3rd Annual Congress of International Drug Discovery Science and Technology, Shanghai, China, 2005  
Lecture, Wenzhou Medical College, Wenzhou, China, 2005  
Nobel Lecture, 3rd Annual Congress of International Drug Discovery Science and Technology, Dalian, China, 2005  
Lecture, Dalian Institute of Chemical Physics, Dalian, China, 2005  
Lecture, ISIS Center for Chemical Research, University Louis Pasteur, Strasbourg, France, 2005  
Lecture, In Honor of Seymour Rabinovitch, University of Washington, Seattle, WA, 2005  
Summarizing Lecture, The Royal Society of London, London, UK, 2005  
Distinguished Morawetz Lecture, Polytechnic University, Brooklyn NY, 2006

Lecture, Nobel Laureates Meeting, Lindau, Germany, June 2006

Lecture, Technical University, Munich, Germany, June 2006

Round Table Discussion, Petra Conference of Nobel Laureates II, Amman, Jordan, June 2006

Lecture, Third National Symposium on Isotopomers, University of California San Diego, San Diego, California, August 2006

Lecture, McGill Alumni Association, Hilton Hotel, Pasadena, California, 2006

Lecture, Special Symposium, American Chemical Society, 2006 Fall Annual Meeting, San Francisco, California, September 2006

Robert S. Mulliken Lecture, Department of Chemistry & Center for Computational Chemistry, University of Georgia, Athens, Georgia, October 2006

Keynote Address, Second Annual Undergraduate Research Conference, McGill University, Montreal, Quebec, Canada, October 2006

Opening Dinner Talk, Future Direction in Chemical Dynamics Conference in Celebration of Professor Yuan T. Lee's 70<sup>th</sup> Birthday, Academia Sinica, Taipei, Taiwan, R.O.C., December 2006

Round Table Discussion Forum, Future Direction in Chemical Dynamics Conference in Celebration of Professor Yuan T. Lee's 70<sup>th</sup> Birthday, Academia Sinica, Taipei, Taiwan, R.O.C., December 2006

Video-Conference Lecture, "Electron Transfers in Chemistry and Biology," Praygan 2007, National Institute of Technology, Trichy, India, February 2007

Lecture, "Electron Transfer in and among Nanoparticles," Mesilla Chemistry Workshop: Electron Transfer and Molecular Devices, Las Cruces, New Mexico, February 2007

Lecture, "On the theory of Intermittent Fluorescence of Quantum Dots," Conference on Fluorescence Intermittency in Molecules, Quantum Dots and Quantum Wires, University of Notre Dame, Notre Dame, Indiana, April 2007

Plenary Lecture, "On the Theory of Intermittent Fluorescence of Quantum Dots," 5<sup>th</sup> International Symposium on Theory of Atomic and Molecular Clusters, Richmond, Virginia, May 2007

Opening Lecture, "Isotope Effects: From the Earliest Solids in the Solar System to the Enzymatic Catalysis," Isotopes 2007 Conference, Universitat Jaume I, Binicassim, Spain, May 2007

Lecture, "Electron Transfer Reactions in Chemistry and Biology – Then and Now," Institute of Computational Chemistry, University of Girona, Girona, Spain, June 2007

Lecture, "Surface Processes: From Inorganic Quantum Qots to 'On Water' Catalysis of an Organic Reaction," Nanyang Technological University, Singapore, September 2007

Lecture, "Electron Transfer Reactions in Chemistry and Biology – Then and Now," Nanyang Technological University, Singapore, September 2007

Lecture, "Electron Transfer Reactions in Chemistry and Biology – Then and Now," Nobel Laureates Beijing Forum 2007-Energy & Environment, Beijing, China, September 2007

Lecture, "Striking Acceleration of Rate of Organic Reaction 'On Water': A Theory," Nobel Laureates Beijing Forum 2007-Energy & Environment, No. Eight Middle School, Beijing, China, September 2007

Round Table Discussion, Global Sustainability – A Nobel Cause, 1<sup>st</sup> Interdisciplinary Symposium, Potsdam Institute for Climate Impact Research, Potsdam, Germany, October 2007

Lecture, "Theoretical studies on H/D isotope effects for unusual systems - from 'on water' organic reactions to single molecule fluctuations in enzyme catalysis." XIVth International Workshop: Quantum Atomic and Molecular Tunneling in Solids and other Condensed Phases, University of Houston, Houston, Texas, October 2007

Lecture, "Electron Transfers – From the Early Days to Quantum Dots," Technical University of Munich, Munich, Germany, February 2008

Plenary Lecture, “Single Molecule Studies – From Quantum Dots to Proteins,” Center for Nanoscale Materials, Argonne National Laboratory, Argonne, Illinois, May 2008

Round Table Discussion, Petra Conference of Nobel Laureates IV, Amman, Jordan, June 2008

Address to School Assembly & Science Club, Flintridge Prep High School, La Canada Flintridge, California, May 2008

Plenary Lecture, “Theory of Electron Transfer Processes: Origin, Applications, and Fluorescence Intermittency of Semiconductor Nanoparticles,” 1<sup>st</sup> International Conference of the Grand Challenge to Next-Generation Integrated Nanoscience, Institute for Solid State Physics, Tokyo, Japan, June 2008

Lecture, “Enzymatic Catalysis, Models, Rates, and Fluctuations,” Institute of Molecular Sciences, Okazaki, Japan, June, 2008

Round Table Discussion, Scientific and Medical Challenges Confronting Society, Petra Conference of Nobel Laureates IV, Amman, Jordan, June 2008

Lecture, American Conference on Theoretical Chemistry, Northwestern University, Evanston, Illinois, July 2008

Lecture, 6<sup>th</sup> Congress of the International Society for Theoretical Chemical Physics, University of British Columbia, Vancouver, British Columbia, Canada, July 2008

Plenary Lecture, “Theory of Electron Transfer Processes: Origin, Applications, and Fluorescence Intermittency of Semiconductor Nanoparticles,” 1<sup>st</sup> International Conference of the Grand Challenge to Next-Generation Integrated Nanoscience, Institute of Solid State Physics, University of Tokyo, Tokyo, Japan, June 2008

Lecture, “Enzymatic Catalysis, Models, Rates, and Fluctuations,” Institute of Molecular Science, Okazaki, Japan, June 2008

Round Table Discussion, Scientific and Medical Challenges Confronting Society, Petra Conference of Nobel Laureates IV, Amman, Jordan, June 2008

Lecture, “Interaction Between Experiments, Analytical Theories and Computation,” ACS 236<sup>th</sup> National Meeting, Division of Physical Chemistry, Philadelphia, Pennsylvania, August 2008

Plenary Lecture, “Experiment-motivated Theoretical Studies of Reaction Rates: ‘On Water’ Organic Reactions, Isotope Fractionation and Single-Molecule Fluctuations,” Theory and Applications of Computational Chemistry 2008 (TACC), Shanghai, China, September 2008

Lecture, “The Mutual Impact of Atmospheric Reactions, Experiments, and Chemical Physics Theory,” 4<sup>th</sup> International Symposium on Isotopomers 2008 (ISA 2008), The National Museum of Emerging Science and Innovation, Tokyo, Japan, October 2008

Lecture, “Experiment-motivated Theoretical Studies of Reaction Rates: ‘On Water’ Organic Reactions, Isotope Fractionation and Single-molecule Fluctuations, Dynamics and Spectroscopy of Small Molecules and Biomolecules, Institute of Atomic and Molecular Sciences (IAMS), Academia Sinica, Taipei, Taiwan, November 2008

Lecture, “Theoretical Studies Ranging from Quantum Dots to On-Water Catalysis,” Nanyang Technological University, Singapore, November 2008

Lecture, “Experiment-motivated Theoretical Studies of Reaction Rates: ‘On Water’ Organic Reactions, Isotope Fractionation and Single-molecule Fluctuations,” Shaul Mukamel Symposium, University of California Irvine, Irvine, California, December 2008

Lecture, Experiment-motivated theoretical studies of reaction rates: 'on water' organic reactions, isotope fractionation and single-molecule fluctuations Conference on: “Life in Liouville Space: 30 years of Theoretical Spectroscopy” University of California Irvine, Irvine, California, December 1, 2008

Lecture, Quantum Dots: Results and Unknowns, Nanyang Technological University Singapore, March 1-15, 2009

Lecture, Single Molecules and Other Properties in Enzyme Catalysis, Conference on: "Functional motions in enzyme catalysis" American Chemical Society 237 National Meeting, Salt Lake City, Utah, March 26, 2009

Panel Discussion: The Role and Future of Chemistry for Renewable Energy.  
59th Meeting of Nobel Laureates, Lindau, Germany, 2009, June 30, 2009

Lecture, 'On Water' and Enzyme Catalysis to Single Molecules and Quantum Dots, Theory and Experiment, 59th Meeting of Nobel Laureates, Lindau, Germany, July 1, 2009

Lecture, From 'On Water' and Enzyme Catalysis to Single Molecules and Quantum Dots, Theory and Experiment, Conference on "Frontiers in Chemistry," Nanyang Technological University, Singapore, July 20-22, 2009

Einstein Lecture, Workshop on Protein Function and Dynamics 2009, Kavli Institute for Theoretical Physics China at the Chinese Academy of Sciences (KITPC Beijing), Beijing, China, August 1, 2009

Lecture, Experiment-motivated Theoretical Studies of Reaction Rates: 'On water' Organic Reactions, Isotope Fractionation and Single-molecule Fluctuations, Graduate School of Chinese Academy of Sciences, Beijing, China, August 14, 2009

Lecture, Quantum Dots and Intermittency, Results, and Puzzles, Symposium on "The Physical Chemistry of Photon to Fuel Conversion" 238th ACS National Meeting in Washington, D.C., August 16-20, 2009

Spiers Memorial Lecture and Medal, "Interplay of theory and computation in chemistry --- examples from on-water organic catalysis, enzyme catalysis, and single-molecule fluctuations," Faraday Discussion 145: Frontiers in Physical Organic Chemistry University of Wales Institute, Cardiff, UK, September 2009

Lecture, Quantum Dots - Inorganic and Organic, Experiments, Theory, Predictions, Tests and Unknowns, Laser Science XXV Conference, San Jose CA, October 2009

Panel Discussion, Festival of Thinkers, Future Innovations: Promoting Science and Technology, Abu Dhabi Men's College, Abu Dhabi, United Arab Emirates, November 2009

Panel Discussion, Festival of Thinkers, Future Responsibilities: Global Citizenship, Dubai Men's College, Dubai, United Arab Emirates, November 2009

Lecture, Topics (1) On-Water Organic Catalysis, (2) Electron Transfer Reaction, Siemens Competition in Math, Science, and Technology, California Institute of Technology November 2009

Lecture, Semiconductor Quantum Dots: Experiments, Theory, Predictions, Tests and Unknowns, Nanyang Technological University, Singapore, March 2010

Lecture, Single Molecule Studies of Charge Transfers, Nanyang Technological University, Singapore, March 2010

Lecture, Studies on the Theory of Bimolecular Recombinations and Photochemical Unimolecular Dissociations, The Fifth International Symposium on Isotopomers, ISI 2010, Amsterdam, The Netherlands, June 2010

Lecture, Experimental Surprises and Their Solution in Theory, The 60th Lindau Nobel Laureate Meeting, Lindau, Germany, June 2010

Remarks, Convocation Dinner, Nanyang Technological University, Singapore, July 2010

Lecture, What Do We Learn from Single Molecule Studies of Electron Transfer Processes, Gordon Research Conference, Salve Regina University, Newport, RI, August 2010

Lecture, Molecular Basis of Photosynthetic Energy and Electron Transfer with Comparison to Related Respiratory Systems, 15<sup>th</sup> International Photosynthesis Congress, Nanyang Technological University, Singapore, August 2010

Opening Lecture, Complementarity of Analytical and Computational Studies of Reactions, Examples from Enzyme Catalysis and from Organic Reactions in Emulsions (“On-Water”), 20<sup>th</sup> International Conference on Physical Organic Chemistry Busan Exhibition & Convention Center (BEXCO), Busan, Korea, August 2010

Lecture, Single Molecule Studies of Quantum Dots, Solar Energy Components and Enzymes, Opening-Symposium Bionanosciences BOKU/AIT, University of Natural Resources and Applied Life Sciences, Vienna, Austria, September 2010

Public Lecture, Electron Transfer and its Role in Chemistry, Biology and Solar Energy Conversion, Austrian Academy of Sciences/Austrian Institute of Technology, Vienna, Austria, September 2010

Public Lecture, Experimental Surprises and Their Solution in Theory, 22<sup>nd</sup> Solvay Conference in Chemistry on Quantum Effects in Chemistry and Biology, International Solvay Institutes, Brussels, Belgium, October 2010

Lecture, From On-water Catalysis of Organic Reactions to Blinking Dyes and Quantum Dots, Symposium in Honor of Arieh Warshel’s 75<sup>th</sup> Birthday, University of Southern California, Los Angeles, CA, November 2010

Lecture, 'On Water' Organic Catalysis in Emulsions, Dangling Interfacial OH’s Theory and Experiment, National Institute of Clean and Low-Carbon Energy Meeting, Pasadena, CA, February 2011

Lecture, Reorganization, Tunneling, and Work Terms (Gating) in Electron and Other Transfer Reactions, Symposium on Twenty Years of Tunneling Pathways, 241<sup>st</sup> National ACS Meeting, Anaheim, CA, March 2011

Lecture, McGill Memories and A Life in Science, McGill University, Montreal, Quebec, Canada, April 2011

Opening Lecture, Experiment, Theory and Applications: Electron Transfer, Intermittent Fluorescence, On-water Catalysis, Conference in Celebration of 75<sup>th</sup> Birthday of John Albery, University of Oxford, England, April 2011

Brief Talk to high school participants and their mentors in the A\*Star Talent Search, Singapore Science and Engineering Fair Awards for 15 – 18 year olds students, Awards Presentation Ceremony, Singapore, April 2011

Lecture, Kinetic Developments -- from On-water Catalysis to Blinking in Dye-Sensitized Systems, ‘Green Chemistry’, A\*Star, Singapore, April 2011

Lecture, Developments in field of electron and related transfers - now and then, 242<sup>nd</sup> National ACS Meeting, Denver, CA, August 2011

Lecture, Single molecule studies in quantum dots and in initial steps in dye sensitized solar cells - examples of electron transfers, 242<sup>nd</sup> National ACS Meeting, Denver, CO, August 2011

Lecture, Developments in field of electron and related transfers – now and then, Gibbs Medal Centennial, 242<sup>nd</sup> National ACS Meeting, Denver, CO, August 2011

Lecture, Developments in field of electron and related transfers - early and recent, Second Biennial John A. Pople Lecture in Theoretical and Computational Chemistry Conference, Pittsburgh, PA, October 2011

Lecture, Single molecule studies in quantum dots and in initial steps in dye sensitized solar cells - examples of electron transfers, Conference on Studies of Nano and Bio-Materials Using Laser, X-ray and Single-Molecule Techniques, Saylin Wen Cultural and Education Foundation (SWCEF) Lecture, Taipei, Taiwan, November 2011

Lecture, A life long experience as a scientist/student and educator, Conference on Studies of Nano and Bio-Materials Using Laser, X-ray and Single-Molecule Techniques, SWCEF Lecture, Taipei, Taiwan, November 2011

Lecture, Science, teaching and the world of electron transfer reactions, Conference on Studies of Nano and Bio-Materials Using Laser, X-ray and Single-Molecule Techniques, SWCEF Lecture, Taipei, Taiwan, November 2011

Lecture, Single-molecule studies in quantum dots and in initial steps in dye sensitized solar cells - examples of electron transfers, Conference on Quantum Molecular Dynamics: A Conference in Honor of William Miller, Berkeley, CA, January 2012

Lecture, Processes at interfaces, ranging from fluorescence intermittency to on-water catalysis, Black Forest Focus on Soft Matter 7 Conference, Saig, Germany, March 2012

Lecture, Single molecule studies of diffusion controlled electron transfer in an initial dye-sensitized step in solar cells and in quantum dots, 243<sup>rd</sup> National ACS Meeting, San Diego, CA, March 2012

Lecture, Single molecule studies of intermittent fluorescence: a diffusion-influenced electron transfer in dye-sensitized solar cells and in quantum dots, 2<sup>nd</sup> International Photosynthesis Workshop - Natural and Artificial Photosynthesis, Bioenergetics and Sustainability, Singapore, June 2012

Plenary Lecture, Single molecule studies in initial steps in dye sensitized solar cells and in quantum dots – examples of electron transfers, IPS-19 --19th International Conference on Photochemical Conversion and Storage of Solar Energy, California Institute of Technology, Pasadena, CA, July 2012

Lecture, Single molecule studies of initial steps in dye sensitized solar cells and of quantum dots – examples of electron transfer and relation to ensemble studies, Nobel Laureates Meeting, Lindau, Germany, July 2013

Plenary Lecture, Single molecule studies of quantum dots and of the initial steps in a solar cell - examples of electron transfers, Electrochimie dans les Nanosciences 6, Paris, France, May 2014

Lecture, Electron transfer reaction theory in chemistry – from the isotopic exchange reactions of the 1940s and 1950s to the modern solar energy conversion era, Doctoral School of Chemical Physics and Analytical Chemistry, Diderot University, Paris, France, June 2014

Conference Lecture, Single molecule studies of quantum dots and in the initial steps in a solar cell – examples of electron transfers, 3<sup>rd</sup> International Workshop on Solar Energy for Sustainability “Natural and Artificial Photosynthesis: Advances in Solar Fuels and Photovoltaics,” Singapore, June 2014

Lecture, Ventures in science, theory and experiment, University of Granada, Spain, September 2014

Opening lecture, Single molecule intermittent fluorescence studies of quantum dots and in initial steps in dye sensitized solar cells, International Conference of Fundamental Processes in Semiconductor Nanocrystals Oxford, United Kingdom, September 2014

Honorary Chairman and Plenary Lecture, Single molecule intermittent fluorescence studies of quantum dots and in initial steps in dye sensitized solar cells – examples of electron transfers and diffusion, 19th International Workshop on Quantum Systems in Chemistry, Physics and Biology, Taipei, Taiwan, November 2014

Plenary Lecture, Electron transfer reaction theory in chemistry – from the isotopic exchange reactions of the 1940s and 1950s to the modern solar energy conversion era, Global Young Scientists Summit, Singapore, January 2015

Lecture, Early steps in polyelectrolytes study and a leap into the electron transfer theory, Polyelectrolytes in Chemistry, Biology and Technology Workshop, Singapore, January 2015

Plenary Lecture, Electron transfer theory in single molecule studies of intermittent quantum dots and in initial steps in dye sensitized solar cells, The 15<sup>th</sup> International Congress of Quantum Chemistry, Beijing, China, June 2015

Lecture, Electron transfer theory in single molecule studies of intermittent fluorescence of quantum dots and in initial steps in sensitized solar cells, Nobel Laureate Meeting, Lindau, Germany, July 2015

Lecture, Electron transfers: From simple isotopic exchange reactions to the single molecule era, Multiscale Modeling of Complex Molecules and Life Processes: A Symposium Honoring and Celebrating Dr. Arieh Warshel, University of Southern California, November 2015

Lecture, Rates, equilibrium constants and brønsted slopes in F<sub>1</sub>-ATPase single molecule imaging: Experiments and a theoretical approach; 4<sup>th</sup> International Workshop on Solar Energy for Sustainability “Photosynthesis and Bioenergetics”; Singapore, March 2016

A Talk on Scientific Research; deToledo High School Science Academy Colloquium, West Hills, California, April 2016

Lecture, The energy-rich molecule ATP studied in single molecule experiments: theory, predictions, and tests for the different experiments on the enzyme F<sub>1</sub>-ATPase; Baku International Humanitarian Forum; Azerbaijan, September 2016

Lecture, Theory of single molecule experiments of F<sub>1</sub>-ATPase: Predictions, tests and comparison with experiments; 24<sup>th</sup> Solvay Conference on Chemistry “Catalysis in Chemistry and Biology”; Brussels, Belgium, October 2016

Lecture, A chemical-mechanical theory of a biomolecular machine, F<sub>1</sub>-ATPase: Predictions, tests and comparison with single molecule experiments; 9<sup>th</sup> Asian Photochemistry Conference; Singapore, December 2016

Lecture, Six decades of Marcus Theory; Nobel Laureate master class lecture, International Science Youth Forum; Singapore, January 2017

Lecture, Quantum mechanics and chemical reaction rates, 1928 and counting; Conference on 90 Years of Quantum Mechanics; Singapore, January 2017

Lecture, What Can be Learned About the Enzyme ATPase from Single Molecule Studies of its Subunit F<sub>1</sub> and What Not; Lindau Nobel Laureate Meeting; Germany, June 2017

Lecture, Reaction rate-thermodynamic relations and application to single molecule experiments on a biomolecular motor, F<sub>1</sub>-ATPase; XXII International Workshop on Quantum Systems in Chemistry, Physics, and Biology; China, October 2017
